

**A MESSAGE FROM OUR FOUNDER
RONALD J. RAGAN**

*Welcome to
Medallion
Medical
Technologies!*

More than 25 years ago, I made a decision that changed my life forever. Starting in the medical field as an engineer, I worked first hand with customers asking more questions and listening more closely to their exact needs providing them with the services they needed and the results they deserved. With this vast knowledge, I became the co-founder of the largest third party imaging company in the United States.

Today, as I move into the future, I am proud to say that I will remain true and committed to my values and vision through my new venture Medallion Medical Technologies. With my past accomplishments benchmarking my goals, I continue to recognize that every customer has its own unique market position and strategies and I will work hard to understand and meet these special needs – one customer at a time.

I am building Medallion Medical Technologies on a rock-solid foundation of continuity. This is one of MMT's greatest advantages.

Medallion Medical Technologies is the leading full-service provider of pre-owned and refurbished diagnostic imaging systems whether they are fixed or mobile - MRI, CT Scanner, as well as, other imaging systems.

REFURBISHMENT OF MEDICAL EQUIPMENT

*Make your Equipment "Like New"
with our Refurbishing process!*

MMT is truly defining excellence through our extreme refurbishment process. Unlike any other, MMT pushes all the limits of refurbishment, giving you the "Like New" quality you deserve while bringing cost containment and patient safety to a higher standard with savings of up to 80%.

*We serve private clinics, imaging centers,
veterinary clinics and hospitals throughout
the U.S. and around the world.*

As a leader in our industry, we want to be your number one source for Medical Imaging systems and services.
